TRAININGS

Java Programming

Besant Technologies, Online

Jul 2023 - Sep 2023

The Java Training course in Chennai at Besant Technologies is a meticulous learning journey that facilitates the participants to get well oriented with the important java concepts such as Java Array, Exception handling, Threads, Operators, XML handling, Loops, Collections.

Web Development

udemy, Online
Dec 2021 - Apr 2022

I have completed a series of comprehensive web development courses on Udemy, equipping me with a diverse skill set to create and maintain websites and web applications. These courses covered essential topics such as HTML, CSS, JavaScript, front-end and back-end development.

PROJECTS

BHARAT-Times

Sep 2023 - Oct 2023
<https://github.com/Divyx09/trimnews>

"News Web Application with React and News API".
I have designed and developed a dynamic news web application using the React JavaScript. It demonstrates my proficiency in front-end development and showcases my ability to create it responsive.

Tic-Tac-Toe

Aug 2023 - Aug 2023
<https://oxgamexo.netlify.app/>

I have created an interactive and classic Tic-Tac-Toe game using a combination of HTML, CSS, and JavaScript. This project showcases my proficiency in front-end web development and my ability to design and implement an engaging and intuitive user.
